

# Reliable Service for Peace of Mind

An unreliable vendor can wreak havoc on your reputation. Imagine a bride-in-waiting not being able to have a shower on her big day; or no heat in your guest room for your winter weekend get-away. A dream vacation could easily turn into a nightmare without your most basic provisions, just ask any hospitality operator.

*“Exceptional guest experience is our standard,”*

says Joanne Veinotte, General Manager for White Point Beach Resort located in the heart of Queen’s County, NS. *“My guests are counting on me to deliver... their vacations, wedding, receptions and business meetings. And I count on my suppliers to not let me down.”*

# The iconic White Point Beach Resort is a destination to over 40,000 visitors worldwide.

Open 365 days per year, the picturesque White Point Beach Resort situated along the Atlantic Ocean has been taking pride in hospitality since 1928. With over 118 accommodations and a rural location, there can be challenges in managing equipment breakdown and propane fuel supply.

*“What I needed was peace of mind, confidence that the propane supplier I choose would be there for me, and therefore my guests, when needed.”*

Understanding a customer’s needs is the first component to providing excellent customer service.

*“Bluewave Energy walked me through all the regulations and took the time to measure our capacity. They provided solutions to replace ageing equipment. They looked at every tank and every heater and made sure I had what I needed to run my operations efficiently. The service is better, the price is better, and our relationship is key.”*

Bluewave Energy allows business owners to focus on what they do best – that is, manage their own business. With Bluewave Energy, there is always someone to talk to; a face to a service and a willing solution- provider to any equipment service issue. It is for these reasons Bluewave Energy has earned a reputation as being one of the most trusted suppliers of heating oil, propane, and equipment, nationwide.
